

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
10/19/2010	Currently faculty or staff at WMU	More interactivity with students, staff and faculty.
10/19/2010	Currently faculty or staff at WMU	We need more conferences. We need the outside world to see what a great University WMU is and has become.
10/19/2010	Currently faculty or staff at WMU	More activities for students to meet and interact with each other and the community.
10/19/2010	Currently faculty or staff at WMU	More food, particularly international, so students can stay on campus and enjoy campus activities
10/19/2010	Currently faculty or staff at WMU	more family events for middle school and early high school students. Events for students that give them something to do each weekend instead of the bar scene. Such as opening the rec up like they do for finals finish but do it once a month and have prizes so it gets the students to come.
10/19/2010	Currently faculty or staff at WMU	A place for music and other performances during the weekends...an alternative to bars and drinking.
10/20/2010	Currently faculty or staff at WMU	Better parking - increased ease for visitors parking on campus for tours, etc.
10/20/2010	Currently faculty or staff at WMU	Nothing to add - they are plenty of activities for those who wish to take part in.
10/20/2010	Currently faculty or staff at WMU	More parking or at least quit taking away what little parking there is. I realize that taking away green space would be bad too so maybe take some flat lots and make them ramps like Miller, there is always parking there.
10/20/2010	Currently faculty or staff at WMU	More morale building events throughout campus maybe to emphasis a specific building.
10/20/2010	Currently faculty or staff at WMU	a stress management center with relaxation programs, art therapy, yoga, meditation, etc
10/20/2010	Currently faculty or staff at WMU	Not sure
10/20/2010	Currently faculty or staff at WMU	Varsity soccer fields on main campus.
10/20/2010	Currently faculty or staff at WMU	Perhaps an activity for morale building among staff....some type of activity that would bring workers together, in a social networking type of way. Just a thought...
10/20/2010	Currently faculty or staff at WMU	Nock down West hall and build and restore East Hall... Open up a history museum (for all of kalamazoo). This could help expose the public to WMU at the same time.
10/20/2010	Currently faculty or staff at WMU	Better interconnection of buildings for bad weather transit. Tunnels/bridges are nice, but they are expensive. More bridges would be nice. Th eeasiest thing that could have been done and has not is just to put outside doors of various buildings opposite/near with direct connects. Friedmann and Sprau are feet apart, but walkers need to do hundreds. Chem looks directly at UCC/Wlado bridge but has no straight path. No direct path between Chem and Dalton. Etc.

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
10/20/2010	Currently faculty or staff at WMU	A trolley system and non-motorized pathway between the campus and downtown Kalamazoo
10/20/2010	Currently faculty or staff at WMU	More green space, less driving, less roads.
10/20/2010	Currently faculty or staff at WMU	water features, create more and distribute them throughout campus, soften the edges of campus
10/20/2010	Currently faculty or staff at WMU	Employee only workout rooms. Some of us do not wish to work out with skinny 18 year olds and their friends.
10/20/2010	Currently faculty or staff at WMU	Faculty dining room.
10/20/2010	Currently faculty or staff at WMU	Parking needs to be improved and NOT removed!
10/20/2010	Currently faculty or staff at WMU	More landscaped green spaces.
10/20/2010	Currently faculty or staff at WMU	Ultimate Frisbee course...unless there is one and I just haven't run into it yet.
10/20/2010	Currently faculty or staff at WMU	More programs aimed at bringing high school students and their organizations to campus. High school tournaments, summer camps, etc.
10/21/2010	WMU retiree or emeritus	Develop the West entrance to West Campus...it is an active area with lots of potential to make a positive statement for the university.
10/21/2010	Currently faculty or staff at WMU	More bike accessible.
10/21/2010	Currently faculty or staff at WMU	I miss back in the day when the FCS students prepared and served lunch in an environment they had created as the designers, cooks and servers.
10/21/2010	Currently faculty or staff at WMU	Weight Watchers meetings Walking tour routes outlined in red for 1 mile, blue for 2 miles, green for 3 miles, etc.Return of campus olympics (dept vs dept or dept vs student group)
10/21/2010	Currently faculty or staff at WMU	We need more enclosed walking routes or connecting bridges between buildings. Cold weather/snow are an integral part of Michigan, and any long term solutions that effectively protect students/staff from inclement weather are always welcome. Just imagine, being able to walk from Lawson Ice Arena to the Bronco Mall without bracing the winter-blizzards!
10/21/2010	Currently faculty or staff at WMU	Would like shuttle buses from periphery parking to the campus interior.
10/21/2010	Currently faculty or staff at WMU	Large outdoor space festivals, etc. More quality concerts and events with students and education in mind rather than current Miller corporate formula entertainment seasons.
10/21/2010	Currently faculty or staff at WMU	Workshops that would help students learn about writing outside of classes that focus on content (although many are writing intensive), efforts to help international TAs and students move beyond cultural shock with the American students.

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
10/22/2010	Currently faculty or staff at WMU	Winter wonder land weekend.....Snow and ice sculptures and various winter/snow activities. Kalamazoo is blessed with snow fall averging 72 a year and the students seem to lock themselves indoor once it starts to snow.
10/22/2010	Currently faculty or staff at WMU	A new storage facility. A new archive building. A bike-sharing system (http://en.wikipedia.org/wiki/Bicycle_sharing_system)
10/22/2010	Currently faculty or staff at WMU	I can't think of anything in particular.
10/22/2010	Currently faculty or staff at WMU	In the spring and summer, when events like the Michigan Youth Arts Festival and auditions for prospective students for schools and programs in the College of Fine Arts are taking place, guests to campus have a very difficult time finding Shaw Theatre, Dalton Center, Dunbar and Knauss Halls. We would use an information center and additional eating areas that are open throughout the entire year (including the summer months) on that side of campus. Please consider making improvements to the stairs to no where on the north side of Waldo Library (the stairs between Waldo and McCracken Hall that was formerly an entrance to old Waldo Library before the renovation in the early 1990's). That would make a nice informal seating area if the stairs were reconditioned. It would also look nice as a cascading flower bed, which would look like the flowers and plants were falling out of the library.
10/22/2010	Currently faculty or staff at WMU	Bring all athletic events closer to campus...soccer for one.
10/22/2010	Currently faculty or staff at WMU	Better parking for library employees and users. Accessing the library from a wheel chair (and many other buildings for that matter) is daunting. It's too bad the parking lot between Kanley and Sangren was changed.
10/22/2010	Currently faculty or staff at WMU	Nothing new, but consider lower-priced shows at Miller and a better discount for staff.
10/22/2010	Currently faculty or staff at WMU	More student evenst like Bronco Bash. Having live bands on Miller's steps is awesome.
10/22/2010	Currently faculty or staff at WMU	The bowling alley was really great. I understand that there use to be a barbershop on campus.
10/22/2010	Currently faculty or staff at WMU	More outdoor eating areas - maybe kiosks or vendors for buying lunch and areas to eat outside.
10/22/2010	Currently a student at WMU	The Bernhard Center to act as a true union, with activities and space for students. Also, for it to be physically appealing so students want to be there.
10/23/2010	Currently faculty or staff at WMU	More green space.
10/25/2010	Currently faculty or staff at WMU	a room for faculty to socialize.
10/25/2010	Currently faculty or staff at WMU	Outdoor concerts

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
10/26/2010	Currently faculty or staff at WMU	More gathering spaces, indoors and out; more food/coffee outlets, like the Plaza Cafe; more flexible parking (especially for visitors - it's bad to welcome them by making them feed meters).
10/26/2010	Currently a student at WMU	Campus wide snowball fight
10/27/2010	Currently faculty or staff at WMU	More opportunity for faculty/staff to socialize on-campus.
10/28/2010	Currently faculty or staff at WMU	The various student organizations, International Program Council and the various international activities on campus give us many programs and activities that keep most students happy and busy.
10/28/2010	Currently faculty or staff at WMU	Farmer's Market
11/3/2010	Currently faculty or staff at WMU	An old folks home or medical/activity center for us aging boomers. Maybe put us up on East Campus or one of the state hospital buildings. We would provide great hands-on training for students in a variety of fields and we might stay healthier by taking classes, attending programs and volunteering.
11/4/2010	Currently faculty or staff at WMU	More places right on campus to socialize. Shouldn't have to go to Campus Pointe or Roadhouse/Waldos to do this.
11/4/2010	Currently faculty or staff at WMU	Back in the day (circa 1960's/70's) the student organizations used to build magnificent snow sculptures all over campus - it would be cool, if this endeavor would be resurrected.
11/4/2010	Interested / Want to contribute	I would like to see the parking lot in front of Sangren Hall eliminated and green space created there. I would like to see the student activity return to the hilltop campus, the East Campus. The East Campus quad could once again bustle with activity and provide a traditional college setting which would be the envy of the newer schools (i.e. Grand Valley).
11/4/2010	Currently faculty or staff at WMU	I'd like to see more community activities, or at least have more awareness of things that already exist. I don't think the general population of Kalamazoo is very informed about non-student opportunities. I am an employee and I often feel not as informed as I would like to.
11/4/2010	Currently faculty or staff at WMU	Maybe some kind of scenic walking trail measured out for distance and marked.
11/5/2010	Currently faculty or staff at WMU	Commitment to greenspace in front of Sangren HallThe current blacktop is both unsightly and doesn't contribute to the look of a modern university campus.
11/5/2010	Currently faculty or staff at WMU	lots of congestion and conflict between drivers and walkers; example...crosswalks by Sindecuse make it difficult to turn in to the facility -- constant stream of students crossing there

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
11/5/2010	Currently a student at WMU	I heard about this thing that other campuses have called sleep pods or something. They are just like these little beds with an overhang so its dark for you, and you can pay like a dollar for a half an hour in there and just take a little nap. You can even plug in your ipod in there. That would be wonderful to have somewhere on campus.
11/5/2010	Currently a student at WMU	Arbor Day tree planting (students involved); more opportunities for students to clean up/revitalize campus first rather than focusing on environmental problems outside the university
11/5/2010	Currently a student at WMU	I would like to see more sustainability things around campus. For example, more wind power turbines like the one currently at the engineering campus. Also so type of reimbursement for carpooling to campus or riding the bus rather than driving oneself.
11/6/2010	Currently a student at WMU	A place where students can gather, study, socialize, play music, display artwork, in a cafe like setting- where students can interact and not just go about walking around campus on cell phones and ipods.
11/8/2010	Currently a student at WMU	Concerts....more of a music scene.
11/8/2010	Currently a student at WMU	Ninja Warrior!
11/8/2010	Currently a student at WMU	I would like to see a stronger bicycle community, particularly the infrastructure to support and welcome such a community: more bike lanes on roads (perhaps even on the sidewalks, too), more bike racks (the up-side-down U racks are great! - I don't think there are any on campus yet), improved biker signage (for car driver awareness), and maybe even an on-campus bike shop of some sort.
11/9/2010	Currently a student at WMU	I would like to see the Campus Activities Board grow a pair and actually spend all of the money that they get from WSA. WMU has an excellent location between Chicago, Grand Rapids, and Detroit. If the athletic department would cooperate with CAB, WMU could bring in some HUGE entertainment artists, which would bring a lot of money into the school, city, as well as a lot of publicity.
11/9/2010	Currently faculty or staff at WMU	Some sort of a Community Festival. Inviting all of the surrounding communities to our campus on an annual basis. Open up the Athletic Centers and the rest of our campus for a day at WMU. Something HUGE that would attract people to our campus and make them feel at home here. I think it would be an excellent way to encourage our kids to go to their University. There should be food, fun activities, games, sports, tours, etc...
11/9/2010	Currently faculty or staff at WMU	More bike route paths through out campus

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
11/9/2010	Currently faculty or staff at WMU	There needs to be a visual campus calendar where one can see (and register) all upcoming events. Each department could add speakers, brownbag discussions, weekend conferences, graduate student presentations, so that there is an instant intellectual center for people to consult. If I have two free hours at lunch today, is there a talk being hosted in the French department that I could attend? How would one know? This is what creates intellectual community and a sense of the vitality of all departments. It's fairly easy to post and maintain (Virginia Tech created a free-ware version of a campus calendar), and should be sponsored by the Office of the VP for Research or the office of Faculty Development, or maybe the Provost's office. It would cost practically nothing and would help enormously.
11/9/2010	Currently faculty or staff at WMU	I'd like to see more people (and definitely fewer cars) near the center of campus. I'd also like the relationships between buildings to feel more continuous and cohesive, like a cityscape and transitional spaces to be destinations such as public sculpture sites. The regrettable decisions to build horizontally--specifically the Parkview and Oakland campuses--hurts these prospects.
11/9/2010	Currently faculty or staff at WMU	outdoor skating rink
11/9/2010	Currently faculty or staff at WMU	a REAL cafe - coffeehouse style to sit and eat, study, socialize
11/9/2010	Currently faculty or staff at WMU	More study areas as well as more places to sit for students in many of the buildings. Students have no where to sit and study in many of the buildings so you find them sitting in hallways blocking traffic coming through.
11/9/2010	Currently faculty or staff at WMU	More greenspace, especially returning some to Miller plaza
11/9/2010	WMU graduate or former student	Less functions and activities. More emphasis on education.
11/9/2010	Currently faculty or staff at WMU	More activities for staff, rec activities, runs, bike rides, hikes ect.
11/9/2010	Currently faculty or staff at WMU	more cafes, open gathering spaces for students faculty in buildings
11/9/2010	WMU retiree or emeritus	A main gathering place. Like a quad/diag or similar place. Just having an open center to campus (ie. flagpole area) doesn't make it have identity as such.
11/9/2010	Currently faculty or staff at WMU	Electric trolley on rails connecting major points of campus. I hate driving from Sprau to east campus or Bernhard Center or Sindecuse or Fetzer Center.
11/9/2010	Currently faculty or staff at WMU	Mandates for all offices to recycle. Lots of paper still going into the trash.

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
11/9/2010	Currently faculty or staff at WMU	A one stop student services center including Academic Advisors, Financial Aid, Registrar's Office, Admissions, Orientation, Account's Receivable, Parking services, etc. This would eliminate students having to run all over campus for interfacing with the University. The building should be designed like a food court at the mall with departmental offices around the perimeter and customer service counters to help students. The center could have lounge furniture and a coffee shop in the center of the lounge area. The university would have one place to go for student business. This would be less confusing and much more efficient for our students. This needs to be located on the edge of campus for easy access and free parking. We need to make the campus more user friendly.
11/9/2010	Currently faculty or staff at WMU	Winter operas and summer concerts.
11/9/2010	Currently faculty or staff at WMU	Tear down Bernhard Center and start over. Historic preservation of East Campus.
11/9/2010	Currently faculty or staff at WMU	More cafes and places to mingle and meet throughout campus. (It's the warm fuzzy aspects that help build the culture)
11/9/2010	Campus Neighbor / Live in Arcadia, W. Main, Vine, etc.	University garden space
11/9/2010	Currently faculty or staff at WMU	Outdoor ice rinks in the winter with warming house and music and lights at the ball fields that would allow for pick up hockey and general skating. What fun it could be.
11/9/2010	Currently faculty or staff at WMU	A restaurant in Miller Auditorium. Improved cafe at Sprau Tower. Faculty club.
11/9/2010	Currently faculty or staff at WMU	A more vibrant central hang-out for faculty and students. Bernhard Center is outdated, not in the center of campus, and inadequate.
11/9/2010	Currently faculty or staff at WMU	Continued green spaces and open areas.
11/9/2010	Currently faculty or staff at WMU	Maybe a map to art that is found in the buildings. Something like what they have for the sculpture found here.
11/9/2010	Currently faculty or staff at WMU	More pedestrian friendly - more active green spaces where people could gather. Many gather at miller plaza but that is not a green space.
11/9/2010	Currently faculty or staff at WMU	Parking for visitors without meters. An easier route for visitors from the Administration building to Fetzer.
11/9/2010	Currently faculty or staff at WMU	An outdoor gathering place for staff... there are times when I would really like to eat lunch outside, but there aren't many options for space except for a few benches.
11/9/2010	Currently faculty or staff at WMU	A cafe in the College of Aviation campus. On-campus winter activities like an ice skating rink - maybe at the intermual soccer fields, since there are already lights. Brighter lighting along the ring road - after dark, it is difficult to see pedestrians when driving.

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
11/9/2010	Currently faculty or staff at WMU	I think his name is Steve, but more of him talking about native plants at various times of the year.
11/9/2010	Currently faculty or staff at WMU	Bernhard Center is horrible. It's not inviting, the restaurants are sub-par, and it looks old and worn. Even in spite of the renovation, which really didn't do much. How about the BC cafe? Uncomfortable, horrible food, outdated. I never want to go there.
11/9/2010	Currently faculty or staff at WMU	Anything that would make students want to feel more involved in activities, clubs, etc.
11/9/2010	Currently faculty or staff at WMU	We don't have many good places to eat lunch within walking distance of campus. Many campuses today have large student centers with beautiful eating facilities that have large salad bars, deli sandwiches, panini's, etc. We don't have anything like that.
11/9/2010	Currently faculty or staff at WMU	more outdoor seating and tables in green areas
11/9/2010	Currently faculty or staff at WMU	Native American student recruitment and active support system. The campus is located in Pottawatomie homelands and is central to 3 Pottawatomie tribes. A connection to the tribes could be a valuable resource, both financially and culturally.
11/9/2010	WMU retiree or emeritus	More outdoor rooms, less hardscape, better night lighting, equal attention to all landscape areas on campus and less attention to specific buildings or areas.
11/9/2010	Currently faculty or staff at WMU	Major rock bands at modest prices in Miller Auditorium.
11/9/2010	Currently faculty or staff at WMU	BENCHES NEAR ENTRANCE TO MOORE HALL.
11/9/2010	Currently faculty or staff at WMU	I would like to see more metered parking spots available for visitors to the Haworth College of Business. The meters need to allow for more than a 1/2 hour of parking. We have visitors that need 1 1/2 hours of parking without the threat of getting a ticket. It does not give a good impression of the University.
11/9/2010	Currently faculty or staff at WMU	use of university space for summer programs
11/9/2010	WMU retiree or emeritus	Outdoor ice skating.
11/9/2010	Currently faculty or staff at WMU	Last year I would have said an all year farmers market. Maybe a place where entrepreneurial students could sell things. Cottage industry might jute the future for Michigan. But this winter Kalamazoo will have the beginnings of one on Burdick street at Crosstown. We are trying to make the Bernhard Center a real student union and that is good. I hope that all community does not move to the web. But is the architect's answer to this the atrium and a cafe selling shrink wrapped food?
11/9/2010	Currently faculty or staff at WMU	healthy eating options in more individual buildings. more public art.

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
11/9/2010	Currently faculty or staff at WMU	Observatory. Most campuses have one.
11/9/2010	Currently faculty or staff at WMU	More lighting (lighting has even go out in the parking area next to the traffic circle and Faunce--it was so black there one night that I could not see where to step down from the curb into the parking area).
11/9/2010	Currently faculty or staff at WMU	Weekend hangout for students who chose not to drink (open mic night? independent films? music?).
11/9/2010	Currently faculty or staff at WMU	More attention to bicycle pathways, parking and promotion of bicyling (check out Univ. Illinois)
11/9/2010	Currently faculty or staff at WMU	Clean buildings everywhere -- even the oldest.
11/9/2010	Currently faculty or staff at WMU	Don't know, never thought about it. There is so much that goes on here.
11/9/2010	Currently faculty or staff at WMU	I would love to see a new building for Career and Student Employment Services, including office space and interview rooms for all of the employers and industry leaders that need space on our campus every time they need to interview/recruit our students. I would also love to see an actual Student Union be built on our campus, with somekind of entertainment stage/menu for activities that CAB coordinates.
11/9/2010	Currently a student at WMU	a bike share program. where students can swipe their bronco ID and borrow bikes to use around town and on campus.also, local/organic/vegan food options in all the cafes.
11/9/2010	Currently a student at WMU	I'm happy with the activitys currently offered at the moment.
11/9/2010	Currently faculty or staff at WMU	I would like to see more people bicycling and walking to get where they need to go, and fewer cars. Campus is not too bad for pedestrians and cyclists now, but it could be better. We should not be afraid to inconvenience car drivers a little bit in order to encourage more bicycling. Car drivers have it pretty good. If there was less driving and more biking, it would be a better campus for everyone: safer, better air, less congestion, less searching for parking places, more attractive, better health and fitness, etc., etc.
11/9/2010	Currently faculty or staff at WMU	more outdoor sculptures
11/9/2010	Currently faculty or staff at WMU	Student centered activities on campus including at athletic events
11/9/2010	Currently faculty or staff at WMU	MORE PORTABLE EATING STANDS...
11/9/2010	Currently a student at WMU	a monthly gathering of rso's that would allow students to find out what is offered at wmu

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
11/9/2010	Currently faculty or staff at WMU	Well it isnt a function or activity, but the main thing that is needed is a place for faculty to eat that is open more than a couple of hours each day and which serves the kind of meals we should be eating, a chicken breast or a piece of fish, green vegetables, etc.
11/9/2010	Currently faculty or staff at WMU	charging stations for plug in electric vehicles
11/9/2010	Currently faculty or staff at WMU	I would like to see green technology have a bigger 'footprint' on campus. More solar panels, possibly small wind turbines. Also I would strongly encourage the university to consider native plantings as a way to reduce water usage (native plants don not require extensive watering) and to encourage biodiversity on campus. The university could provide demonstrations of native plantings, including green roofs, to highlight their utility and beauty.
11/10/2010	Currently a student at WMU	I wish the buses came more frequently than every half hour. It would also be nice if there was a way to get places outside of campus on Sundays. Sunday is a great day to go shopping or go to the store and it's hard to get anywhere because no buses run.
11/10/2010	Currently a student at WMU	I would like the club sports fields to be fixed so our club sports won't go else where to hold their tournaments. Currently there is such a lack of help for club sports and the fields are so unbelievably awful that our own WMU Sports Clubs take their business else where because it is too difficult and they are too embarrassed to even consider playing on our fields here. If they want to try and play here, the clubs have to rent the IM fields, only if IM isn't happening, for a price much higher than it should be for club sports.
11/10/2010	Currently a student at WMU	Roller Hockey/ Ice Skating
11/11/2010	Currently a student at WMU	Free use of facilities for club teams or at the very least fair funds given to these RSO's. the SCC was told that their organizations did not represent enough of the student population to receive a more substantial amount of funds. However last fall there were fraternities and other RSO's getting literally thousands of dollars each for their one time events. I was particularly angry that a black womens' group received money for a series of movie nights. I am not saying that they should not get money, but i am sure that the sports clubs are much less exclusive than a black womens group.
11/12/2010	Currently a student at WMU	More Field Space for sports.
11/12/2010	Currently a student at WMU	I would like to see some better maintained athletic fields. The Intramural fields are not well kept, and often have holes and uneven ground due to weeds instead of grass on the ground. I do not enjoy twisting my ankles when I go to play pick-up sports out there.
11/12/2010	Currently a student at WMU	More bicycle friendly.

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
11/12/2010	WMU graduate or former student	More charity initiatives.
11/12/2010	Currently a student at WMU	More ultimate frisbee.
11/12/2010	Currently a student at WMU	Some actual school support for Western's ultimate frisbee team.
11/12/2010	Currently a student at WMU	letting club teams use the university and IM fields for practices.
11/12/2010	Currently a student at WMU	I would like to see paintball somewhere. And there need to be more fields the Frisbee teams can play and practice on. the field we have to use right now is in terrible condition, to the point where there is basically no grass left.
11/12/2010	Currently a student at WMU	better fields to play frisbee on
11/12/2010	Currently a student at WMU	the recreation fields suck, playing on them has twisted my ankles a couple times, plus they arnt really close to campus really, its kind of out there...
11/12/2010	Currently a student at WMU	I would like to see someone take better care of the club team fields in the back of the IM fields. These fields are neglected and are in deffinate need of repare.
11/12/2010	Currently a student at WMU	more greenery (trees)
11/14/2010	Currently a student at WMU	More activities that allow students to do OTHER THINGS besides drinking. There is a huge need for community and fellowship at Western.
11/15/2010	Currently faculty or staff at WMU	A larger cafe on the south side of campus. The cafe in Sprau tower is very small. When it's busy, it's confusing where to stand to make and pay for purchases.
11/15/2010	Currently a student at WMU	Would love to see free or reduced price to get into SRC; would love to see a room available to use or share for RSOs desiring space during times that are convenient for the RSO to meet. In other words, our RSO is a community group that has members coming in from Battle Creek and Pennfield, and INDIANA, in order to do what we do. In the winter, the frequency of meetings drops to once per week, which is not really viable - bowling club can meet every day; indoor soccer can meet every day; why can't we?
11/17/2010	Currently a student at WMU	Ultimate frisbee. It's here now but in a very bad location and the field is a pain to deal with.
11/18/2010	Currently faculty or staff at WMU	More aggressive university community involvement in developing and nurturing ongoing collaboration and active involvement of the very stakeholders we are preparing our students to serve.
11/18/2010	Currently faculty or staff at WMU	More Green space
11/22/2010	Currently a student at WMU	stuff on east campus

**WMU Campus Masterplan
Survey Fall Semester 2010
Question #9**

Date Started	Please give us a little information about yourself.	What kind of function or activity would you like to see on campus that isn't here now?
11/23/2010	Currently faculty or staff at WMU	more collaborative indoor spaces in and around Brown Hall, Sprau, Dunbarâ€computer lab availability in Brown Hall,
11/30/2010	Currently a student at WMU	<p>A student-led campus cafe that would serve as an interdisciplinary training ground for students in a variety of fields of study. It could also be a study place for students, a social hub, and a creative outlet. Western would be the first school in Michigan to have a student-led cafe, which is a growing trend that dates back to 1968 when The Coffee House at UC Davis was first started (http://coffeehouse.ucdavis.edu/). With a campus-wide focus on sustainability, plenty of community resources for local food sourcing (and even a student garden on campus!), and the growing national awareness of the obesity epidemic and efforts to localize our food stores, a cafe supporting these ideals would fit right in to our upcoming campus renovations. What better way to celebrate Michigan being our country's second most agriculturally diverse state?</p>
12/1/2010	Currently faculty or staff at WMU	<p>The SRC hosts a large number of events in the indoor tennis area (Health and wellness Expo, Rentals, and Fall Welcome. Most of the trucks who deliver the items for theses event can't make the turn into the space so they drive over the grass. A cut away would make more sense. the area in front of the Indoor Tennis area is often used as a drop off spot for people who are disabled or students who have friends drop them off on campus. It might be worth it to create a space for drop offs. This is better then people stopping traffic in front of the SRC.</p>
